TO WHOM SO EVER IT MAY CONCERN

This is to clarify that As per NMC guidelines (Ref: https://nmc.org.in/storage/new/Diploma-Anesthesia.pdf & https://nmc.org.in/storage/new/MD-Anesthesia.pdf last accessed on : 7/11/26) in the curriculum of Post graduate course in Anaesthesiology, Paediatric Anaesthesia is an integral part irrespective of the degree i.e M.D / DA / DNB. We are trained to handle Pediatric cases throughout the Post graduate course.

A person who has completed Post Graduate training programme in Anaesthesiology whether MD / DA/ DNB are technically trained and are legally allowed to practice paediatric Anaesthesia.

This is a clarification regarding the competency to practice paediatric Anaesthesia.
